24 Law Chambers assists public institutions and government-related entities to identify, validate, pursue, negotiate, litigate, arbitrate, settle and recover lawful revenues, debts, statutory claims, receivables and institutional entitlements.

## The Problem We Solve

Many public institutions hold substantial recoverable claims that remain unrealised because the claims have not been legally validated, prioritised, demanded, negotiated or enforced in a disciplined manner. Poorly framed recovery action can create litigation risk, political exposure, reputational damage or collection failure. Our approach is designed to recover value while protecting legality, accountability and institutional credibility.

## Recovery Framework

### 1. Recovery Audit

- Review debt schedules, contracts, ledgers, demands, approvals, correspondence and prior actions.
- Classify claims by value, legal basis, age, evidence and recovery probability.

### 2. Legal Validation

- Confirm statutory, contractual, regulatory or administrative basis for recovery.
- Identify limitation, jurisdiction, evidence and procedural risks.

### 3. Demand and Engagement

- Prepare legally grounded demands and debtor-specific correspondence.
- Preserve escalation options while encouraging early settlement.

### 4. Settlement and Repayment

- Prepare repayment frameworks, settlement agreements, security terms and default clauses.
- Support management or board approvals where required.

### 5. Litigation, Arbitration and Enforcement

- Commence proceedings where settlement fails.
- Use judgment enforcement, garnishee, execution or insolvency-linked options where appropriate.
